CERTIFIED RETURN RECEIPT REQUESTED
(P 402 458 369)

Mr. Chris E. Shingleton
Director of Permitting
Utah Power & Light Company
1407 West North Temple
Salt Lake City, Utah 84110

Dear Mr. Shingleton:

Re: Conditional Approval of Abatement/MRP Amendment Plans, Notice of Violation N86-4-3-3, #1 of 3, Diesel Repair Shop, Utah Power & Light Company, Deer Creek Mine, ACT/O15/O18, File #4 & 7, Emery County, Utah

The Division has completed the review of the abatement plans submitted on May 9, 1986 for NOV N86-4-3-3, #1 of 3. The submission will also serve as an MRP amendment to the approved permit application for the Deer Creek Mine. The plans are technically complete and are hereby approved.

The Diesel repair shop is a 1440 square foot addition to the existing mine shop and warehouse. The estimated reclamation cost for this facility is sufficient and will be added to the existing bond at the mid-term review of the permit.

As a condition of this approval, please provide an additional ten (10) copies of the updated revised plan view map and the pertinent replacement pages of text to be inserted into the approved MRP application on file. The extra copies will be forwarded to the appropriate permitting agencies for updating of their respective file copies.

If possible, please provide the revised copies by June 16, 1986. Thank you for your cooperation in completing this permitting activity.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
