Mr. Lowell P. Braxton, Administrator
Mineral Resource Development and Reclamation Program
State of Utah
Department of Natural Resources
Division of Oil, Gas and Mining
355 West North Temple
3 Triad Center, Suite 350
Salt Lake City, UT 84180-1203

RECEIVED
OCT 21 1987
DIVISION OF
OIL, GAS & MINING

Dear Mr. Braxton:

Attached are documents concerning our planned modification to the Deer Creek Mine Fan Road Drainage.

The attachments are as follows:

1. Text outline of the modification including introduction and description.
2. Drawing number DS963C showing road, contours, drainage, riprap, etc.
3. Drawing number Figure 1, dated 5/15/86 showing hydrologic drainage area.
4. Hydrograph calculations of drainage area.
5. Culvert inlet control nomograph chart.

This project will not materially increase the original reclamation cost and should not effect the bond requirement.

We suggest that the permit files for this project be updated during the midterm review which we will be working on in the next few months.

Mr. Lowell P. Brown

We would appreciate your early review and approval of this project as we have construction crews on the property now completing another project and we would like to start this job early for completion before severe winter weather.

Sincerely,

Ray Christensen
Manager, Permitting & Compliance
