RE: Updated Mine Sequence Maps, Utah Power and Light Company, Deer Creek Mine, ACT/015/018, Folder #2, Emery County, Utah

Utah Power and Light Company submitted an updated mine sequence map on August 17, 1987, for the Deer Creek Mine-Blind Canyon Seam, in response to a request for such from the Division. This Division request arose from a Bureau of Land Management approval of a minor modification to the mine sequence which could not be found in the present mine sequence map in the MRP.

This updated map is adequate and depicts the present mine sequence as of this date.

*The modifications of adding ~~the~~ entries (travelway connection between 8<sup>th</sup> Right and 7<sup>th</sup> Right as well as two set-up entries for the 9<sup>th</sup> Right @ crosscuts 37, 38, and 39) will not affect the monitoring of this area.*
