Dear Mr. Christensen:

Re: Approval of PAP Amendment, BLM Approved Underground Mine
Sequence Changes, Utah Power & Light Company, Deer Creek &
Cottonwood Mines, ACT/015/018-87G, Folder #3, Emery County, Utah

On November 27, 1987, the Division received a copy of the above referenced underground changes to the approved mine plan from the BLM. The proposal has been reviewed by Division Mining Engineer, Pamela Grubaugh-Littig. These modifications will be on the outer boundaries of the areas studied for subsidence, namely Area #4 (Deer Creek) and Area #6 (Cottonwood). No other monitoring will be affected. The Division concurs with the BLM approval and hereby issues its approval for the underground changes.

As a reminder, please ensure that all approved underground mining sequence changes are incorporated into the revised mining sequence map(s) to be included in the required annual report to the Division for the Deer Creek/Cottonwood mines. Thank you for your cooperation in this matter. As always, please call should you have questions or need additional information pertaining to this review.

Sincerely,

D. Wayne Hedberg
Data Management Coordinator
