DIVISION OF
OIL, GAS & MINING

Gentlemen:

Re: Waste Rock Storage Facility, Deer Creek Mine

We received on April 21, 1988 the Permit Application Package (PAP) for the referenced project. Based upon preliminary review of the PAP, it appears the proposed facility will require approval from the Bureau of Air Quality and Bureau of Water Pollution Control. Please contact Dave Kopta at (801) 538-6108 for further information on Bureau of Air Quality Notice of Intent submittal requirements. Review of the proposed sediment ponds is being performed by myself. You will be contacted if additional information for review of the sediment ponds is required.

Sincerely,

David R. Ariotti, P.E.
District Engineer
Division of Environmental Health

cc: John Whitehead, DOGM
Dave Kopta, Bureau of Air Quality
