Mr. Val Payne
Permitting & Compliance
Mining Division
Utah Power & Light Company
31 North Main Street
Huntington, Utah 84528

Val
Dear Mr. Payne:

Re: Certification Requirements for Sediment Ponds, Class I Haul Roads, Coal Waste Ponds and Impoundments, Utah Power and Light Company, Deer Creek Mine, ACT/015/018; Cottonwood/Wilberg Mine, ACT/015/019; and Des-Bee-Dove Mine, ACT/015/017, Folder #2, Carbon County, Utah

Division certification of the above types of structures is being scrutinized by federal inspections, and the enclosed policy is designed to provide consistent certification reporting statewide. I have asked Bill Warmack, Reclamation Specialist/Inspector, to review your present certification reporting for these structures with you, and to discuss completion of the requisite reports, where necessary.

If remedial action is required to bring your certification reporting into compliance with the regulations, you should take the requisite steps prior to the next state inspection. Thank you for your cooperation.

Sincerely,

Lowell P. Braxton
Administrator
Mineral Resource Development
and Reclamation Program
