Mr. Rick Smith
Permit Supervisor
Division of Oil, Gas and Mining
355 West North Temple
3 Triad Center, Suite 350
Salt Lake City, Utah 84180-1203

Dear Mr. Smith:

Re: Amendment to Construct Two Sediment Traps and
Small Compressor Building - Deer Creek Mine

On September 22, 1989, an amendment request was submitted for the construction of two sediment traps and compressor building at the Deer Creek tipple area. By letter dated October 4, 1989, from the Division, the amendment contents were approved with the request to appropriately insert into permit application package.

Enclosed are seven (7) copies of Map 3-9 Drawing No. DS202E revised 10/19/89 "Facilities Area". This map has been revised to show the location of the two sediment traps and compressor building. Pages 3-48 (revised) and 3-48.1 (revised) have been revised to describe this construction activity. A page detailing bonding for final reclamation is included and should be included in the bonding section. This amount is \$2,223.00.

Sincerely,

David Smaldone
Director of Permitting,
Compliance & Services
Fuel Resources
