July 10, 1989

TO: Richard V. Smith, Permit Supervisor
FROM: Tom Munson, Reclamation Hydrologist *TM*
RE: Rilda Canyon Flume Installation, Utah Power and Light Company, Deer Creek Mine, ACT/015/018, Folder #2, Emery County, Utah *CEP* [^]-89A

06/01/89
Utah Power and Light Company recently installed flumes in the Rilda Canyon drainage. The installation of these permanent structures was performed with the minimum of disturbance, and therefore will not require any reclamation of the area. Existing roads were used to access both installation sites. The flumes were constructed according to specifications and will be included as permanent monitoring locations for Utah Power and Light Company's mining activities.
