Dear Mr. Payne:

Re: Change in Approved Seed Mix for Waste Rock Disposal Site,
Utah Power and Light Company, Deer Creek Mine, ACT/015/018,
Folder #2, Emery County, Utah

The Division approves the change to the final revegetation seed mix, requested in correspondence dated March 23, 1989.

Because Erigonum corymbosum may never be commercially available, I recommend that the substitution for Atriplex corrugata be made permanent.

Please revise page 3-8 of the Waste Rock PAP and submit to the Division for inclusion in the approved permit.

Sincerely,

A handwritten signature in cursive script that reads "Brent Stettler".
