RE: NOTICE OF VIOLATION N35-04-01  
DEER CREEK MINE ACT/015/018

Dear Ms. Grubaugh-Littig:

The following information is submitted in response to the interim remedial actions identified in the above referenced NOV.

Site 1: This site is not within the Deer Creek Mine permit area. The site was permitted through the agencies having regulatory responsibility for the area (State Health, State Engineer and Division of Wildlife Resources). This permitting process addressed sediment control and revegetation.

Site 2: Interim seeding of this area is not practical within the specified time-frame (December 31) due to frozen ground and snow cover. The area will be seeded during the spring of 1991. The first normal period for favorable planting conditions (R614-301-354).

If you have questions regarding this information please contact me at 220-4584 or Val Payne at 653-2312.

Sincerely,

J. Blake Webster  
Permitting Administrator
