Dear Mr. Webster:

Re: Rilda Canyon Federal Lease Tract, Utah Power and Light
(PacifiCorp Electric Operations/Fuel Resources), Deer Creek
Mine, ACT/015/018, Folder #2, Emery County, Utah

The initial permit application for the Rilda Canyon Federal Lease Tract was received February 12, 1990. Division Initial Completeness Review comments, along with other agency comments, were sent on May 23, 1990. A partial response was received from PacifiCorp Electric Operations (Utah Power and Light) on October 16, 1990. The hydrologic section to have been submitted at a later date, has not been received as of this date. This permit application cannot be reviewed for completeness until the hydrologic section is submitted.

This letter is to advise you that the Division workload is such that applicant responses are considered for review in the order in which they are submitted when received, the hydrologic package will be prioritized for review as a function of that order. Please feel free to call me if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Lowell P. Braxton".

Lowell P. Braxton
Assistant Director, Mining
