RE: RECONCILIATION OF DEER CREEK PERMIT APPLICATION PACKAGE

Dear Ms. Grubaugh-Littig:

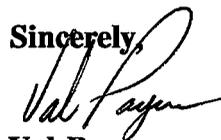

Following several discussions including a meeting on June 17, 1992 with you and your staff, the entire text portion of the reformatted Deer Creek PAP, submitted October 8, 1990 has been cross-checked against the text of the renewed Deer Creek PAP (renewed February 8, 1991). All pertinent information contained in the renewed PAP is included in the reformatted PAP.

As we have discussed, the appearance of some portions of the reformatted PAP is different than the renewed PAP due to the information being converted from a previous word-processing program or typewritten form into Word Perfect. Any changes in content are the result of updating of information. Resulting from our June 17th meeting, several items were found to have been inadvertently omitted. These items have been replaced in this submittal.

I feel the enclosed materials contain a complete, reformatted Deer Creek Permit Application Package.

If you have questions regarding this information, please contact Debra Warrington or myself at 653-2312. Also, if you desire another meeting to discuss this matter, please notify us.

Sincerely,

Val Payne
Sr. Environmental Engineer
