RE: SEDIMENT CONTAINMENT BOX AMENDMENT, PACIFICORP, DEER CREEK MINE, ACT/015/018, EMERY COUNTY, UTAH

Dear Pamela,

2

As the Division is aware, the cleaning of the Deer Creek Sediment Pond is very time consuming, costly and difficult. In order to reduce the frequency of pond cleaning, I enclose the following amendment proposal for the construction of a "Sediment Containment Box" in the sediment pond area.

Details of the sediment containment box are found in revised page 3-22 and added pages 3-22.1 and 3-22.2. Drawings 1, 2, 3 and 4 are enclosed for detail information. After construction completion, the surface yard map (DS202E, Packet 3-9) and these drawings will be certified and submitted as a separate amendment.

Upon approval please:

1. Replace page 3-22 of the permit with page 3-22 (Revised 10/20/93). Add pages 3-22.1 and 3-22.2 (Added 10/20/93) to the permit. These pages explain the design, location, construction, operation and cleaning of the sediment containment box.
2. Replace the following pages of the permit: 4-10 with page 4-10 (Revised 9/22/93); 4-59.2.1 with 4-59.2.1 (Revised 9/22/93); 4-65 with 4-65 (Revised 9/22/93). These pages update the Reclamation Bond costs.

Your immediate consideration of this request is greatly appreciated. If you have questions, please call Guy Davis or me at 653-2312.

Sincerely,

Val Payne
Sr. Env. Engineer
