RE: C1 BELT TAKE-UP AMENDMENT, PACIFICORP, DEER CREEK MINE,
ACT/015/018, EMERY COUNTY, UTAH

Dear Ms. Grubaugh-Littig: *Copy Amendment file (P.M.)*

Pacificorp requests that an amendment be granted to allow construction of a Belt Take-up on the C1 Conveyor at the Deer Creek Mine. A heavier take-up is required to replace the currently used steel cable belt with fabric belt. The construction will be on disturbed ground, being an addition to the current C1 belt take-up. The current take-up structure will remain, with the exception of the weight, for conveyor and head roller support. The added reclamation cost for the project, as detailed below, is \$5,054, which equals 0.25% of the bond. The total accumulated reclamation costs since the last reclamation cost adjustment is \$18,183, which includes the Tire Storage Dock, Sediment Retention Box and this amendment. The accumulated reclamation cost is < 5% of the current \$2,000,000 bond, therefore no adjustment to the bond is required per page 4-65 of the approved permit.

Please find enclosed three design drawings and location drawings to aide in the Division's review.
