**RE: TEMPORARY BERM, PACIFICORP, DEER CREEK MINE, ACT/015/018,  
EMERY COUNTY, UTAH**

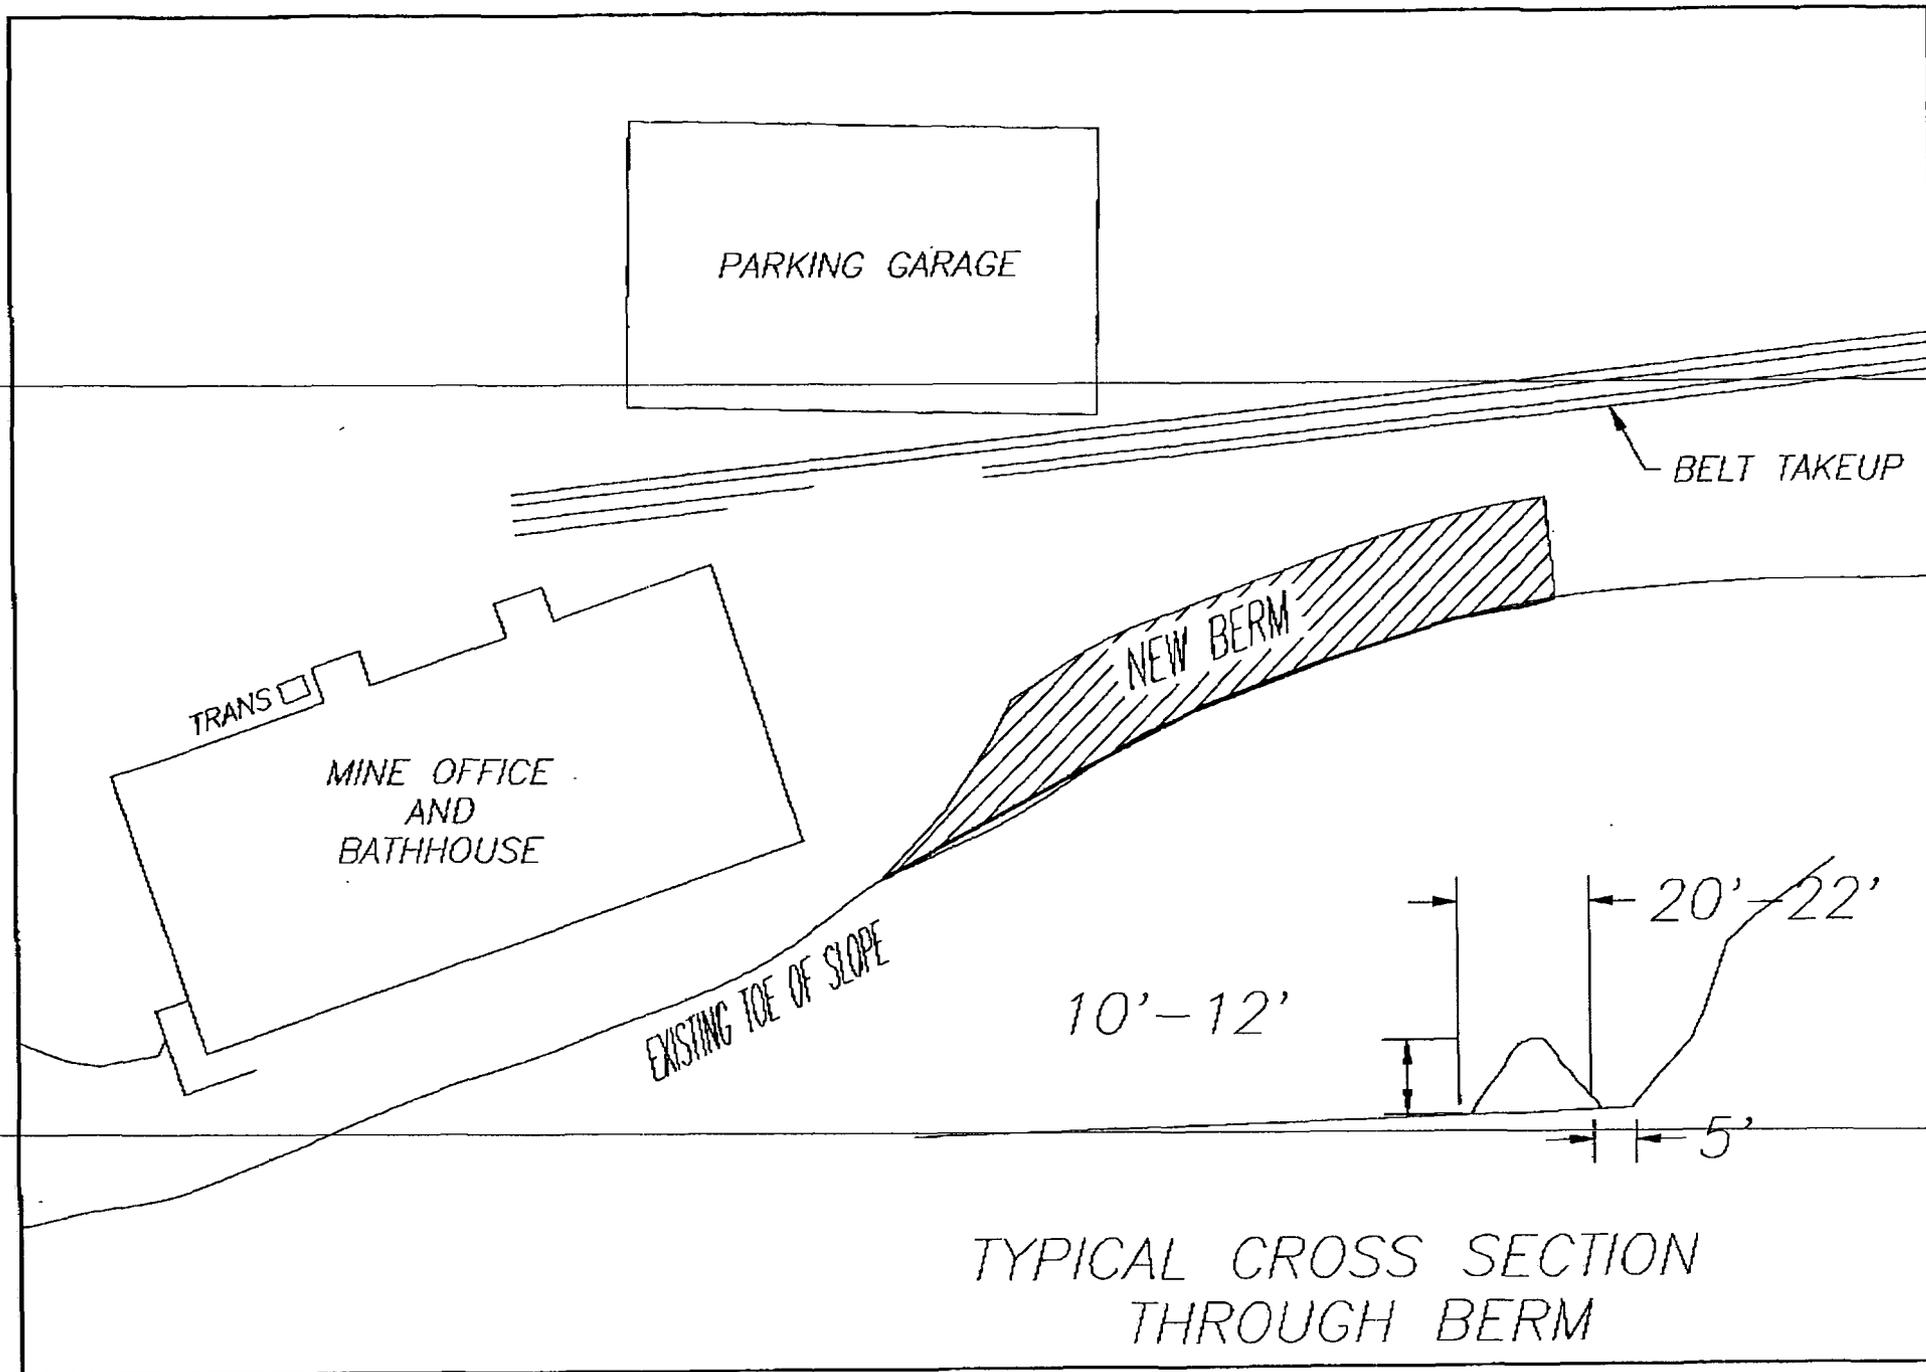

A rockfall occurred at the Deer Creek Mine on April 27, 1995. The incident was reported to the Division by telephone on that date and by letter dated May 3, 1995. Subsequently, it has been determined that measures need to be taken to protect the area impacted by the rockfall. Therefore, PacifiCorp proposes to construct a temporary earthen berm as indicated on the attached sketch. The material used for the berm will be obtained from the Elk Canyon Refuse Disposal Pad area. Approximately 800 cubic yards of material will be required to construct the berm. The material will be returned to the disposal area when the berm is removed.

PacifiCorp desires to begin construction of the berm by Monday, May 8; therefore, immediate attention by the Division is requested.

Thank you for your assistance. Please call me at 653-2312, ext. 16 if you have questions regarding this matter.

Sincerely,  
  
Val Payne  
Sr. Environmental Engineer
