Re: Midterm Permit Review, PacifiCorp, Deer Creek Mine, ACT/015/018, File #3, Emery County, Utah

Dear Mr. Semborski:

The Division is required to review each active permit during its term, in accordance with R645-303-211. This review is to take place at the mid-point of the permit term (August 7, 1998 for the Deer Creek Mine) and will cover pertinent elements that have been selected for review. The Midterm Review for the Deer Creek Mine is now being conducted and the items chosen for review encompass the following:

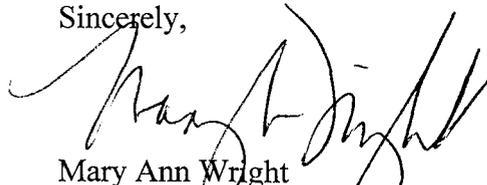

1. An AVS check to ensure that Ownership and Control information is current and correct.
2. A review of the bond to ensure that it is in order and that the cost estimate is accurate and is escalated to the appropriate year dollars.
3. A review of the Plan to ensure that the requirements of all permit conditions, division orders, notice of violation abatement plans, and permittee-initiated Plan changes are appropriately incorporated into the Plan document.
4. A review of your plans to correct the deficiencies associated with Highwall elimination. You should already be aware of the requirement to amend your plans to correct the deficiencies as part of the midterm review. (Refer to March 3, 1998 letter to you from Mary Ann Wright.)
5. The Division may, at its option, conduct a technical site visit in conjunction with the assigned compliance inspector to document the status and effectiveness of operational, reclamation, and contemporaneous reclamation practices.

Midterm Permit Review
ACT/015/018
July 16, 1998

Any information that you would like us to review as part of the Midterm review must be submitted by August 7, 1998. Once the review has been conducted, you will be notified of any outstanding issues that need to be corrected.

If you have any questions regarding these requirements or the Midterm Review please don't hesitate to call.

Sincerely,

Mary Ann Wright
Associate Director, Mining
