DECISION NOTICE/FINDING OF NO SIGNIFICANT IMPACT

DEER CREEK MINE NORTH RILDA EXTENSION

ACT/015/018
#2

Emery County, Utah
(T. 16 S., R. 7 E., SLM)

The Manti-La Sal National Forest and Bureau of Land Management (BLM) Price Field Offices have prepared an environmental assessment (EA) for a proposal by Energy West Mining Company, Deer Creek Mine to amend their mining and reclamation plan for the North Rilda Canyon vicinity. The area of the proposal lies on National Forest System lands administered by the Manti-La Sal National Forest, Ferron-Price Ranger District, Emery County, Utah in Township 16 South, Range 7 East, Sections 20, 21, 28 and 29, Salt Lake Meridian.

The selected alternative for implementation is Alternative 2 (Proposed Action). Alternative 2 is detailed in the EA on page II-1. Alternative 2 would permit Deer Creek Mine to conduct full extraction, longwall mining beneath the Castlegate Escarpment on the north slope of Rilda Canyon, which would lead to surface subsidence and probable rockfalls. The EA and FONSI is available for review at the Forest Supervisor's Office in Price, Utah.

To implement Alternative 2: the Forest Service consents to, and the BLM would approve, a change to the Resource Recovery and Protection Plan, and the Forest Service consents to, and the Utah Division of Oil, Gas and Mining would approve the amendment to Deer Creek Mine's mining and reclamation plan.

The Forest Service decision is subject to appeal under 36 CFR 215. Permit holders or permit applicants responding to Forest Service issued prospectus who may be affected by this decision have the choice to appeal under 36 CFR 215 or 36 CFR 251.

The Forest Service decision is subject to administrative review by the Regional Forester pursuant to the above cited regulations. Any written appeal must be postmarked or received by the Appeal Deciding Officer within 45 days from the day after publication of the legal notice in the Price Sun Advocate newspaper. Appeals should be sent to Regional Forester-Intermountain Region, 324 25th Street, Ogden, Utah 84401 on or before December 17th, 1999. Appeals must meet the content requirements of 36 CFR 215.14.

Contact Jeff DeFreest or Aaron Howe at the Forest Supervisor's Office in Price, Utah (435-637-2817) for additional information.

PUBLIC NOTICE

Leakage of petroleum fuels has been reported to the Department of Environmental Quality. The site is located at Main Street and Green River Boulevard in Green River, Utah. It is shown that petroleum impacted soil and groundwater is located in an area formerly occupied by the former Curtis and Durrant Bulk Plant, the former Olsen's Service station and other facilities. A horizontal free product recovery trench system is being implemented by the Utah Division of Environmental Response and Remediation. Construction of the trench system is slated to begin November 8, 1999 and be completed by December 17, 1999. The main road will be closed to thru traffic during that time from Main Street to 125 North. An active Action (Cleanup) Plan is available for inspection during normal working hours at the Utah Division of Environmental Response and Remediation located at 168 North 1950 West, Salt Lake City, Utah, and at the Green River City office. The state site manager is Mr. Gene S. Hansen (801-464-1100). The site environmental engineer is Mr. Jed Hansen (801-972-8400).
Advised in the Sun Advocate October 28 and November 2, 1999.
