SUBJECT: Determination of Administrative Completeness for Permit Renewal, PacifiCorp
Deer Creek Mine, C/015/018-RN00
State Identification Number: UT001120-100

Dear Ms. Grubaugh-Littig:

The Resource Development Coordinating Committee (RDCC), representing the State of Utah, has reviewed this proposal. The Division of Air Quality comments:

The mine project is subject to Utah Air Conservation Rules (UACR) R307-205-5, Mining Activities, since fugitive dust emissions will be generated during mining activities. In addition, a permit application, known as a Notice of Intent, should be submitted to the Division of Air Quality at 150 N. 1950 West, Salt Lake City, Utah 84116 for review before a permit, known as an Approval Order (AO) may be issued, if any on-site crushing of stone occurs. An AO is not required solely for the control of fugitive dust, but steps need to be taken to minimize fugitive dust, such as, watering and/or chemical stabilization, providing vegetative or synthetic cover and windbreaks.

The Committee appreciates the opportunity to review this proposal. Please direct any other written questions regarding this correspondence to the Utah State Clearinghouse at the above address or call Carolyn Wright at (801) 538-1535 or John Harja at (801) 538-1559.

Sincerely,

John A. Harja
