**Deer Creek Mine - Rilda Canyon Access - Longwall Transfer Update***Permit Reference:**Volume 11 - North Rilda Area**Page 44 - Stipulation 20.*

*Permission be granted to transport the longwall system from Trail Mountain to the Rilda portals via the Rilda Canyon road. Transferring of the longwall system is scheduled to start on June 15, 2001 and be completed by September 15, 2001.*

*\* Allowance to transport up to 10 loads per day of any combination of loads - longwall system or other bulk materials*

*\* Haulage available Monday through Sunday*

*\* All other provisions stated above would still apply*

As stated above, Energy West was allowed to transport the longwall system from Trail Mountain Mine to Deer Creek. The tentative schedule listed Stipulation 20 was from June 15, 2001 to September 15, 2001. Longwall component shipments were initiated on July 16, 2001 and completed on August 24, 2001. Loads per/week reverted back to the approved level of 28 loads/week.

Approximately 25 loads of longwall panline (first longwall panel in the Haiwatha Seam scheduled to start production the last week of December 2001) remain to be hauled. Shipments of the remaining panline is scheduled to start next week, and will be completed by October 15, 2001. Energy West will adhere to all approved stipulations.
