Subject: Information for AVS

I read over the cover letter that you sent on the AVS information. The information didn't include the names of the mines...it had the companies but not the mines on page 3 - that needs to be submitted immediately.

The cover letter said that I agreed to the "inadequate" submittal of information. I guess out of frustration that was all I could say. It does seem a bit misleading, however, i.e. it seems to say that I agreed that inadequate was adequate. That isn't correct. When will the information will be available? Please let us know. Thank you. Pam
