Re: Revised Volume 11: North Rilda Area Engineering Section (R645-301-500), Page 44,
Revised Vehicle Use Stipulation 20, PacifiCorp, Deer Creek Mine, C/015/018, Emery County,
Utah

PacifiCorp, by and through its wholly-owned subsidiary, Energy West Mining Company ("Energy West") as mine operator, herewith submits a revised vehicle use stipulation list to the daily load restriction for material haulage utilizing the Rilda Canyon road as cited in the Deer Creek Mine MRP Volume 11: 526. MINE FACILITIES (R645-301-526). During the summer of 2001, the longwall mining system from the Trail Mountain Mine was transferred to the Deer Creek Mine utilizing the Rilda Canyon surface facilities. The Deer Creek longwall system was extracted from the 9th East longwall panel was temporarily stored within the mine. Energy West request permission to load/haul the longwall shields from the Deer Creek - Rilda Canyon facilities to our warehouse facility.

The longwall system to be transferred includes the 156 roof supports (156 loads). Transport of this heavy equipment is slow and very intense on the underground haulage equipment and any distance saved is of great value both in time and money. The distance from the Deer Creek portals to the longwall face is 7.66 miles one way and the distance from the Rilda portals to the longwall face is 3.25 miles one way. Calculating the savings of underground miles by using the Rilda portals on these 156 loads amounts to 1,376 total miles, which is very significant. Assuming an average speed of 3 mph that this equipment may travel loaded and unloaded yields time saving of 459 man-hours in labor not to mention the equipment savings.

Volume 11, North Rilda Area
Deer Creek Mine C/015/018
Revised Engineering Section (R645-301-500)
May 3, 2002
Page Two

PacifiCorp has worked closely with government agencies involving transportation issues associated with Rilda Canyon including; State of Utah Department of Transportation and the Division of Wildlife Resources, Emery County Road Department and United States Forest Service.

With this information in mind, the following stipulation has been incorporated into Volume 11 North Rilda Area, Engineering Section (R645-301-500):

Stipulation #20 has been revised to state:

20. Permission be granted to transport the longwall system from ~~Deer Creek Mine - Frail Mountain to the~~ Rilda portals via the Rilda Canyon road ~~to the warehouse facility~~. Transferring of the longwall system is scheduled to start on ~~May~~ June 15, 2002~~+~~ and be completed by ~~October~~ September 15, 2002~~+~~.
- + Allowance to transport up to 10 loads per day of any combination of loads – longwall system or other bulk materials
 - + Haulage available Monday through Sunday
 - + All other provisions stated above would still apply

To comply with the Division's policy, PacifiCorp has provided four redline (4) copies of the following (one copy has been sent to the Price Field Office):

- ❖ Volume 11 Engineering Section (R645-301-500), page 44:
Revisions: ◆ Revised Stipulation 20

If there are any questions or concerns please call me at (435) 687-4720..
