SUBJECT: ML 48258-2002
Project No. 02-1799

Dear Mr. Blake:

The Resource Development Coordinating Committee (RDCC), representing the State of Utah, has reviewed this proposal. State agencies' comments are as follows:

Division of Wildlife Resources

DWR is concerned about any disturbance to the Crandall Creek watershed because of the unique fishery there. Caution must be exercised to keep sediments, sludge or any foreign materials a safe distance from this stream. Any degradation of this watershed could be catastrophic to this tenuous fishery. We urge caution as you drill in this area.

Care should also be taken to keep helicopters a safe distance (1/2 mile) from active raptor nests while completing this project.

Thank you for the opportunity to review this proposed action and provide comment. If you have any questions, please call Leroy Mead, Habitat Biologist, at our Price Office (435-636-0274).

Division of State History

No known historic properties have been recorded within the project area because no historic properties' surveys have been conducted.

If you have any questions please contact Jim Dykmann at (801) 533-3555.

The Committee appreciates the opportunity to review this proposal. Please direct any other written questions regarding this correspondence to the Resource Development Coordinating Committee at the above address or call Carolyn Wright at (801) 538-5535 or myself at (801) 538-5559.

Sincerely,

John Harja
Executive Director
Resource Development Coordinating Committee
