**LEGAL NOTICE OF PROPOSED ACTION
PACIFICORP PROPOSED RILDA CANYON PORTAL FACILITIES
NOTICE OF OPPORTUNITY FOR PUBLIC COMMENT AND OPEN HOUSE**

The Utah Division of Oil, Gas, and Mining (DOG M) is evaluating a permit change application from PacifiCorp which proposes to construct new surface facilities in conjunction with the Deer Creek underground coal mine in Rilda Canyon on a federal coal lease with the surface land managed by the Manti-La Sal National Forest. The evaluation will consist of a review of the permit application for completeness and technical adequacy. DOGM will issue a decision granting, requiring modification of or denying the permit change application. The Office of Surface Mining (OSM) is the responsible agency for recommending approval of a federal mining plan modification and is the lead agency for the preparation of an Environmental Assessment (EA) under the requirements of the National Environmental Policy Act (NEPA). Pursuant to the Utah Cooperative agreement [at 30 CFR 944.3 Article VI: C.3. and 30 CFR 740.4(c)(7)] the OSM has delegated the preparation of the EA to DOGM with OSM assistance where appropriate. The Bureau of Land Management and the Manti-La Sal National Forest would be the lead agency for issuing any required road easements.

The proposed facilities may include construction of a ventilation fan, portal facilities, office, bathhouse, parking lot, and staging areas. No coal handling facilities are proposed. The existing County Road in Rilda Canyon would be relocated to bypass the mine facilities and provide unimpeded access to water developments, other mine facilities, and National Forest System trails west of the planned facilities. Total surface disturbance would be approximately 10 acres that would include temporarily diverting Rilda Creek beneath the facilities through a 1,200 foot culvert. This proposed action is located in Rilda Canyon (Section 28, T. 16 S., R. 7 E., SLM, Emery County, Utah).

The public is invited to comment on the proposed project. Comments may be submitted during a public Open House to be held at the Huntington Town Hall, 40 North Main, Huntington, Utah, on May 12, 2004 from 4:00pm to 8:00pm, as well as during the comment periods discussed below.

Comments or requests for information may be sent to Luci Malin, at the Utah Division of Oil, Gas and Mining, 1594 West North Temple, Suite 1210/P.O. Box 145801, Salt Lake City, Utah 84114-5801, FAX (801)359-3940, phone (801)538-5323, or by email at luciamalin@utahgov. Comments will be accepted until June 1, 2004. Comments may also be delivered to the DOGM during regular business hours of 8:00 a.m. to 5:00 p.m., Monday-Friday, excluding Federal and State holidays.

Regarding any necessary modifications to the Forest Service road easement, only those who submit timely and substantive comments will be accepted as appellants. Each individual or representative from each organization submitting substantive comments must either sign the comments or verify identity upon request. Comments received in response to this solicitation, including names and addresses, will be considered part of the public record. Comments must include the supporting reasons and documentation that the commenter believes the Responsible Official should consider in reaching her decision. Comments should include the information required pursuant to 36 CFR 21.5.6(a)(3), as published in the Federal register on June 4, 2003. Comments or requests for information regarding the road easement may be sent to Alice Carlton, the responsible official for any road easement decision, Forest Supervisor, Manti-La Sal National Forest (attn: Carter Reed), 599 West Price River Drive, Price, UT 84501, Phone (435)636-3547, FAX (435)637-4940. The comment period for the proposed road modification will end 30 days after publication in the Sun Advocate.
