Subject: Deer Creek Mine- Rilda Revision NEPA - memo to file

MEMO to file - Rilda NEPA

I am writing this email memo to appoint/re-appoint Lucia Malin, Wayne Hedberg and Susan White to the NEPA team for the Rilda Mine. OSM has delegated the assignment, of preparation of NEPA under their direction for this project, to the state of Utah, OGM.

Luci, a SR REC SPEC in the AMR Program for 20+ years has been appointed as lead for the team due to her in-depth knowledge of the NEPA Process. Luci teaches NEPA classes nationwide for the Office of Surface Mining and has performed NEPA analysis for AMR projects for 20 years.

Wayne is being appointed at this time since he is accepting a cross-training assignment with the Coal Program beginning July 3, 2004 as a Coal Program Supervisor. Wayne has been the Minerals Program Supervisor for the last 12+ years and with OGM for 24 years.

Susan is the Mining Program Coordinator, for the last 2 years, and SR. REC SPEC Biologist for the Coal Program prior to that for 10 years.
