Carl:

The Forest Service feels this action would still be a mine plan modification, as stated in you letter dated March 10, 2004. Although PacifiCorp has made changes to their proposed facilities, it would not change the determination that "the facilities revision does meet the criteria of 30 CFR 746.18(d) and will require a modification to the existing approved mining plan."

Gentlemen:

I have been instructed to delay my response to Utah until I have consulted with you. Please review the attached permit revision application and provide me with a response. Only one response from BLM would be necessary.
