Subject: Miner Plan Determination - Deer Creek

Attached is OSM's final decision regarding the need for a Mining Plan Modification for the above subject. A signed copy will be sent to you in today's mail.

In accordance with the Federal regulations under 30 CFR 740.13(d), other Federal agencies that may have an interest in, or jurisdiction over, the above subject operation have also been notified of OSM's decision electronically.

No responses to this transmittal are necessary.

RE: PacifiCorp - "Deer Creek" Mine - Application for a Permit Revision, Updated Maps

Dear Sir or Madam:

This is in response to the Utah Division of Oil, Gas, & Mining's (UT-DOGM) February 4, 2005, request for a decision, under 30 CFR 944.30, whether the above subject permit revision constitutes a mining plan modification.

Mining plan approvals by the Secretary of the Interior are required under the Mineral Leasing Act of 1920, 30 U.S.C. 181, *et seq.* before coal mining can occur on Federal lands. This letter serves to document OSM's determination whether or not a mining plan approval from the Secretary is required for the above permitting action.

OSM's review of the Application for a Permit Revision, Updated Maps, has determined that it proposes to replace the Rilda Canyon Vegetation Map, Storm Water Diversion System and Sedimentation Pond Map, and Sediment Pond Cross Sections with newer AutoCad versions in the approved permit application for the Deer Creek mine, Utah State permit C/015/018.

Based on a review of the activities associated with the permit revision, OSM has determined that the proposal does not meet the requirements of 30 CFR 746.18(d). Therefore, the proposed permit revision does not constitute a mining plan action requiring Secretarial approval.

OSM's decision was based solely upon the Federal regulations under 30 CFR PART 746 and not the technical aspects of the revision application itself. Consequently, OSM's decision does not relieve UT-DOGM from coordinating the review and approval of the Application for a Permit Revision, Updated Maps, with other Federal agencies for compliance with other Federal regulations.

OSM also electronically transmitted the February 4, 2005, request to the Bureau of Land Management and the U.S. Forest Service for their review and comment.

In an electronic transmittal dated February 7, 2005, the U.S. Forest service stated its opinion the

Updated Facility Map revision would not constitute a mining plan action requiring Secretarial approval.

In an electronic transmittal dated February 22, 2005, the Bureau of Land Management stated in its opinion the Updated Facility Map revision did not constitute a mining plan action requiring Secretarial approval.

Please notify the applicant of our decision on this matter.

Should you have any questions regarding this letter or approval, please contact Carl R. Johnston, Utah Federal Lands coordinator, at (303) 844-1400, extension 1500.

Sincerely,

Ranvir Singh
