Subject: Energy West 2005 Drilling Final Hole Locations

Tom,

Please find attached PDF files with final hole locations for 2005-1, 2005-2, and 2005-3 and photographs of the hole locations. We recently were able to complete an underground vertical hole in 12th West Crosscut 57, which made the original hole location for 2005-1 unnecessary (Review EnergyWestDrillholeLocations 2005-1 - 2005-3.pdf for location of the underground hole AB-881). Due to the complex nature of the splitting of both the Hiawatha and Blind Canyon seams, we relocated the site for 2005-1 to aid us in interpretation of the splits in both seams.

We appreciate your help in securing the approval for the 2005 exploration program. If you have any questions or concerns, please contact me or Ken.

See you Friday morning at 8:00 a.m. at "Don's Shop."
