Subject
Rilda Canyon Breakout

I agree with allowing the operator in the Mill Fork Tract to breakout an air course from the inside of the mine in Rilda Canyon to facilitate ventilation requirements. I understand that BLM will require stipulations that minimize surface disturbance and that will require adequate protection for public safety. My concerns regarding safety are to ensure that the public will not be able to gain access to the breakout and that rocks dislodged during the breakout process will not endanger the County Road below. Please forward Steve Rigby, Dale Harber, and myself a copy of the approval and stipulations. If you have questions, please give me a call. Thanks,

/s/ Alice B. Carlton
