Thanks Dennis for this updated info. Working on plotting out a decent sized map now. Do you know if the new legal description reflects the entire road profile (from facilities area down to Highway 31), or only those sections on USFS surface proposed to be modified? I noted that only Sections 27 & 28 are listed. Is there no activity or upgrading proposed for Section 22? The older (Sept 2004) application had a description broken out for the private land holdings as well. I would like to have a description reflecting the entire length of the modified road profile if possible?? Talk to you tomorrow.

Thanks again,  
Wayne Hedberg
