BUREAU OF LAND MANAGEMENT  
FAIR MARKET VALUE MEETING FOR THE KENILWORTH COAL TRACT  
CARBON COUNTY, UTAH**

The Bureau of Land Management (BLM) will hold a public meeting on March 30, 2006, for the proposed competitive sale, of the Kenilworth Coal Tract. BLM requests public comment on the fair market value and environmental effects of this tract. The BLM signed a Finding of No Significant Impact/Decision Record dated February 10, 2006 that discusses the environmental effects of mining this tract. The lands included in the delineated Federal coal lease tract are located in Carbon County, Utah approximately eight miles north of Helper, Utah on private lands with federally administered minerals and are described as follows:

- T.12 S., R. 10 E., SLM, Carbon County, Utah
  - Sec. 26, N2SW, SESW, SE;
  - Sec. 27, S2;
  - Sec. 34, S2NE, NWNE, NW, S2;
  - Sec. 32, NE, S2NW, S2.
- Approximately 1,760.00 acres

ANDALEX Resources, Inc. submitted the application for the coal lease. The company plans to mine the coal as an extension from their existing Aberdeen mine if the lease is obtained. The Kenilworth coal tract has one or more minable coal beds. The minable portions of the Castlegate A bed in this tract are around six to twelve feet in thickness. The Castlegate A bed contains more than 16.3 million tons of recoverable high-volatile A bituminous coal. The coal quality in the Castlegate A coal bed on an "as received basis" is as follows: 13,060 Btu/lb., 2.92 percent moisture, 7.61 percent ash, 41.82 percent volatile matter, 47.83 percent fixed carbon and 0.41 percent sulfur. The Kenilworth coal bed may be recoverable but further analysis will be required through the R2P2 review and approval process to make this determination. The public is invited to the meeting to make public and/or written comments on the environmental implications of leasing the proposed tract, and also to submit comments on the Fair Market Value and the Maximum Economic Recovery of the tract.

**SUPPLEMENTARY INFORMATION:** In accordance with Federal coal management regulations 43 CFR 3422 and 3425, the public meeting is being held on the proposed sale to allow public comment on the discussion of the potential effects of mining and proposed lease. The meeting is being advertised in the Sun Advocate located in Price, Utah. 43 CFR 3422 states that, No less than 30 days prior to the publication of the notice of sale, the Secretary shall solicit public comments on the Fair Market Value appraisal and Maximum Economic Recovery and on factors that may affect these two determinations. **LEGAL NOTICE OF PROPOSED ACTION**

**DEER CREEK MINE  
MILL FORK WEST EXTENSION TRACT  
LEASE APPLICATION  
USDA-FOREST SERVICE  
MANTI-LA SAL NATIONAL FOREST**

PacifiCorp has submitted an application to lease approximately 213 acres on the Manti-La Sal National Forest, along the west boundary of the Mill Fork State Coal Lease ML-48258, which is a part of the Deer Creek Mine permit area. The proposed tract is called the Mill Fork West Extension Tract, located in T 16 S, R 6 E, S.L.B. & M.:

- Section 10: S2NE4NE4, SE4NE4, W2E2SE4
- Section 15: E2W2E2
- Section 22: Lot 3

The Forest Supervisor, Manti-La Sal National Forest, must decide whether to consent to BLM issuing the lease. The Forest Service and Bureau of Land Management (BLM) will jointly conduct an environmental analysis to evaluate the effects of the proposed action. PacifiCorp has applied for this lease because new mining and seismic data indicate the Joes Valley Fault is located further west than originally thought. These new data may allow extending several longwall panels to the west, enabling recovery of approximately two million tons of additional coal without affecting surface resources. The coal would be mined through the Deer Creek Mine with no need for additional surface disturbance. If the coal is bypassed it would be uneconomical for future mining.

The public is invited to comment on our proposed action. Only those who submit timely and substantive comments will be accepted as appellants. Substantive comments are those within the scope of, are specific to, and have a direct relationship to the proposed action, and include supporting reasons that the Responsible Officials should consider in reaching a decision. Each individual or representative from each organization, submitting substantive comments must either sign the comments or otherwise verify identity in order to attain appeal eligibility. Comments received, including names and addresses of those who comment, will be considered part of the public record for this project and will be available for public inspection. Comments should include the information required pursuant to 36 CFR 215.6(a)(3), as published in the Federal Register on June 4, 2003.

Please send written comments to Alice B. Carlton, Forest Supervisor, Manti-La Sal National Forest, 599 West Price River Drive, Price, Utah 84501; phone (435)637-2817; e-mail: [comments-intermtn-manti-lasal-ferron-price@fs.fed.us](mailto:comments-intermtn-manti-lasal-ferron-price@fs.fed.us). Comments may also be delivered to the above address during regular business hours of 8:00 a.m. to 5:00 p.m, Monday-Friday, excluding federal holidays. The opportunity to comment ends 30 days following the date of publication of this legal notice in the Sun Advocate.
