RE: PacifiCorp - "Deer Creek" Mine - Application for a Permit Revision, Increase Permit Boundary, Task ID No. 2802

Dear Sir or Madam:

This is in response to the Utah Division of Oil, Gas & Mining's (UT-DOGM) May 11, 2007, request for a decision, under 30 CFR 944.30, whether the above subject permit revision constitutes a mining plan modification.

Mining plan approvals by the Secretary of the Interior are required under the Mineral Leasing Act of 1920, 30 U.S.C. 181, *et seq.* before coal mining can occur on Federal lands. This letter serves to document OSM's determination whether or not a mining plan approval from the Secretary is required for the above permitting action.

OSM's review of the Application for a Permit Revision, Increase Permit Boundary, has determined that proposes to incorporated new Federal lease UTU-84285 into the approved permit application for the Deer Creek mine Utah State permit C/015/0018. On March 22, 2007, the Assistant Secretary Land and Minerals Management approved a Mining Plan Modification for this new Federal lease. In addition, the Permit Revision proposes to add a surface Right-of-Way to the approved permit application package for the Deer Creek mine.

Based on a review of the activities associated with the permit revision, OSM has determined that the proposal does not meet the requirements of 30 CFR 746.18(d). Therefore, the proposed permit revision does not constitute a mining plan action requiring Secretarial approval.

OSM's decision was based solely upon the Federal regulations under 30 CFR PART 746 and not the technical aspects of the revision application itself. Consequently, OSM's decision does not relieve UT-DOGM from coordinating the review and approval of the Application for a Permit Revision, Increase Permit Boundary, with other Federal agencies for compliance with other Federal regulations.

DIV. OF OIL, GAS & MINING

TAKE PRIDE
IN AMERICA 

OSM also electronically transmitted the May 11, 2007, request to the Bureau of Land Management and the U.S. Forest Service for their review and comment.

In an electronic submittal dated May 30, 2007, the U.S. Forest service stated in its opinion the permit revision did not constitute a mining plan action requiring Secretarial approval.

The Bureau of Land Management did not provide any comments in the thirty day time frame established by the Federal regulations under 30 CFR 944.30, Article VI. D.

Please notify the applicant of our decision on this matter.

Should you have any questions regarding this letter or approval, please contact Carl R. Johnston, Utah Federal Lands coordinator, at (303) 844-1400, extension 1500.

Sincerely,

Ranvir Singh
Manager, Northwest Branch
