**Subject: Concerning Citation for Non-Compliance, Utah Coal Regulatory Program – Citation #10029, Permit #C0150018, 8/14/08, Supplemental Written Material**

Energy West Mining Company hereby submits supplemental written material in the form of letters and e-mail correspondence related to Citation #10029 to aid in the conference to appeal the fact of the violation for the above-mentioned Notice of Violation (NOV).

The first group of documents includes a copy of the original drill program Notice of Intention as well as follow-up correspondence amending the original notice, and e-mail correspondence indicating the steps in the approval process. These documents include the original submittal for the hole location change, dated July 8, 2008 and the final approval, dated August 13, 2008.

The second group of documents are copies of correspondence related to a similar circumstance where a hole location was moved during the 2003 drilling program. In the 2003 case, Forest Service approval was given for the hole location move, and DOGM gave approval the following day.

Please review and include these documents in the case file for the above-mentioned citation conference. If you have any questions, please call.

Sincerely,

Ken Fleck  
Geology and Environmental Affairs Manager
