**Place:** OGMCOAL  
**Attachments:** jds.approval.doc

Attached is a copy of the final approval letter. Because of the potential for serious weather-caused delays and problems, you can begin work. Upon receiving from you the signed C1/C2 and the copies of the appendix, the Division will send you a signed copy of the approval letter and a stamped "incorporated" copy of the appendix .

Jim,  
Attached is the scanned clean copy of the submittal. FYI: The map will be signed.

Thanks for your help!

Denis,

As per our phone conversation this morning, your draft cover letter describes what the Division needs to proceed. When I receive an e-mailed copy of the Appendix materials, I should be able to get the approval letter in the mail.

JIM

Jim,  
Please confirm your understanding of the attached cover letter for the clean copy submittal of task ID 3064.

Thanks,

Dennis Oakley CPESC  
Senior Environmental Engineer

November 3, 2008

Kenneth S. Fleck, Manager of Environmental Affairs  
Energy West Mining Company  
P.O. Box 310  
Huntington, Utah 84528

Subject: Approval, Mine Structure (reclosure switch and platform) to the Rilda Portal Facility, PacifiCorp, Deer Creek Mine, C/015/0018, Task ID # 3064

Dear Mr. Fleck:

The above-referenced amendment is approved as an appendix to Volume 11. The Division gave conditional approval on October 21, pending receipt of clean copies prepared for incorporation. The Division is now approving installation of the reclosure switch and platform structure.

With the completion of the Rilda Canyon Portal Facilities, it is now necessary for the Permittee to revise Volume 11 of the MRP. The Permittee, through Energy West Mining Company, has stated previously that it intends to have the information and data needed to complete the update of Volume 11 by December 2008, and to submit shortly thereafter a revised Volume 11. The update to Volume 11 will include narrative and maps describing the reclosure switch and platform, so that all facilities in Rilda Canyon will be shown in their as-built condition.

A stamped incorporated copy of the approved amendment is included for insertion as an appendix into Volume 11 of your copy of the Mining and Reclamation Plan. This amendment did not require modification of the Technical Analysis.

If you have any questions, please call me at (801) 538-5262 or Wayne Western at (801) 538-5263.

Sincerely,

James D. Smith  
Permit Supervisor
