Subject: Re: Deer Creek Exploration
Place: OGMCOAL

Steve,

I just talked to Tom Lloyd on the phone. Tom said he had already talked with Ken Fleck about this. The USFS will need to do NEPA and issue a Special Use Permit, so their concurrence may take a while. Tom said he would get a copy of the submittal directly from Ken.

JIM

I would think Price but maybe Ferron

>>> Jim Smith 12/2/2008 8:35 AM >>>
Which USFS office?

A copy of the Exploration Letter of Intent needs to be given to SILTA, and US Forest Service for review and input, since we are the lead agency as required by R645-230. We need a letter of concurrence or email from them.
