Subject: Re: Energy West Raptor Surveyor Qualifications

Thank you for sending in your resumes. Please keep in mind a couple of things. First, please make sure you survey for new nests in areas that could be affected by mining as well as surveying the activity of known nests. Second, if you will be conducting surveys from the ground, make sure there is a vantage point that enables you to see into the nest. Let us know if you have any other questions. We will keep your resumes on file.

Thank you,

Ingrid Wieser

Ingrid and Joe,

I've attached a cover letter and resumes for our raptor survey spotters.

Thanks,

Ken Fleck
