Just forwarding this for your information. It looks like we can close out the Mill Fork South Extension project. Thanks. Daron

Nicole:

Please be advised that PacifiCorp is no longer pursuing the permit area extension known as the Mill Fork South Permit Extension to include the recent federal coal lease modifications. Based on the results of our exploration, the reserves within this area are of substandard coal quality and will not be marketable. The Office of Surface Mining does not need to pursue this matter any further. Thank you for the work that you have done thus far.

Please call me if you have any questions, or require additional information.

Sincerely,

Ken
