The insurance coverage includes explosion coverage.

Reclamation agreement is covered with Bond # 103908970. Signed by both parties July 25, 2005.

Business License through Huntington City. License #3489 issued 1/1/19 and expires 12/31/19.

2. Signs and Markers

The identification sign at the mine site is missing. Probably was removed during demolition or is under snow. Dennis Oakley indicated that he would get another sign on site as soon as possible.

Identification signs are posted at points of access into the permit area. The signs are required to show the name, address, phone number and mining permit number of the operator. The signs on site are in compliance with the regulations.

4.a Hydrologic Balance: Diversions

All diversions are blanketed by a heavy snow blanket. Forms of certain diversions are vague at best.

4.b Hydrologic Balance: Sediment Ponds and Impoundments

The fourth quarter sediment pond inspections were conducted on December 18, 2018. The existing sediment level in the main mine sediment pond is above the 60% clean elevation. This fact has been documented for several months and the decision was made by Division staff to prolong the cleaning due to the fact that reclamation work has begun and the pond will be removed.

4.e Hydrologic Balance: Effluent Limitations

The discharge monitoring reports that were submitted electronically were reviewed during the inspection. No problems were noted.

5. Explosives

There are no explosives on site. The magazines have been removed. The site is in reclamation.
