MEMO TO FILE:

Re: Utah Power & Light Company
Exploration drilling
Emery County, Utah

The memorandum dated October 8th stated that a drill rig was observed drilling test holes for Utah Power & Light Company during the inspection of the Wilberg Mine lease.

We have received (November 17, 1976) notification from Utah Power & Light of their compliance to the Utah Mined Land Reclamation Act, and all other necessary data. Utah Power & Light now has an exploratory file set up in Emery County.

LuAnn Clayton
Mining Secretary
