Attn: Mr. Ronald Daniels

Re: Utah Power & Light Company Wilberg
Mine, Emery County

Gentlemen:

This will supplement my letter of July 13, 1978, in connection with the above matter. I have since advised Mr. Daniels by telephone that the letter of June 29, 1978, from Roberts & Schaefer, Inc., to Utah Power & Light Company was amended in several respects and was resubmitted under date of July 6, 1978. Accordingly, we enclose herewith a copy of the more recent letter, together with the map defining Utah Power & Light's proposed drainage plan for the Wilberg Mine. In this regard, we call your attention to the fact that we propose to remove any sediment from the sedimentation ponds before the sediment therein reaches eighty percent of the design capacity thereof. Again, we would like to reiterate that we are working under a rather urgent time schedule and would appreciate your immediate action on this plan.

Very truly yours,

Ralph L. Jerman
