Re: Wilberg Mine, Emery County, Utah

Gentlemen:

We have heretofore left you a report letter dated June 29, 1978, from Roberts & Schaefer Company to Utah Power & Light Company, outlining the action Utah Power intends to take to comply with the Surface Mining Control and Reclamation Act of 1977. We left with the report a map illustrating the proposed construction.

This action was taken pursuant to earlier meetings with your staff. It is our understanding that you will review the proposal and also submit it to the Office of Surface Mining for their consideration. As you are aware, the Wilberg Mine is presently under construction and none of the facilities are presently existing. However, we have a rather tight time schedule and would appreciate it if you would review the material and get back to us as soon as possible. We hope, of course, that your Division and the Office of Surface Mining will concur with the proposals and allow us to get started immediately to implement them.

Please get back to me if you have any questions or desire any further information.

Very truly yours,

Ralph L. Jerman
