Mr. Don Crane
Office of Surface Mining
Post Office Building, Room 270
1823 Stout Street
Denver, Colorado 80202

Dear Mr. Crane:

The attached data is an appendix of Utah Power & Light Company's Wilberg Mine Permit Cottonwood Portal Modification. This data is the chemical and physical analysis of the overlain and underlain strata for both the Hiawatha and Blind Canyon seams. Please include this as Appendix M in the Permit Application that you are presently reviewing. This data has just recently been accumulated and the amount of tests involved has delayed the transmitting of this data until now.

If you have any questions, please call me at 801-535-4221.

Sincerely,

Karl D. Gurr
