Re: Plans and Drawings for Diversion and
Sedimentation Ponds at Wilberg Mine

Gentlemen:

Pursuant to the Surface Mining Control Act and Regulations, we submit herewith three copies of the Engineer's Report of Hydrologic and Hydraulic Design of the Sedimentation Ponds at Utah Power & Light's Wilberg Mine in Emery County, Utah. We also enclose three sets of the construction drawings covering the sedimentation ponds and the disturbed area collection system.

As you are aware, we are presently proceeding with construction at the Wilberg Mine. Consequently, if there appear to be any problems in connection with the engineer's report or the drawings, we would appreciate it if you would advise us as soon as possible. We also assume that you will forward the required copies to the Office of Surface Mining in Denver.

Very truly yours,

Ralph L. Jerman
