Wilberg Mine
ACT/015/018-B

Jim Smith and Mike Thompson performed a follow-up inspection of Utah Power and Light's Wilberg Mine, with Karl Gurr of Utah Power and Light, on May 3, 1979. A notice of violation was issued to Utah Power and Light on April 18, 1979 by the U.S. Office of Surface Mining. The notice was for a breached berm and oil spillage adjacent to the fan facilities. The Division observed that the violation had be properly abated. A letter with photographs was sent to O.S.M. informing them of the action.
