RE: Wilberg Mine
Sediment Pond Design Approval
ACT/015/018B

Dear Mr. Gurr:

As you know, the Division has issued approval for the hydrology used in the design of the sediment pond and diversion system at the Wilberg Mine. The Division is presently holding its approval of the facility design until clearance from the State Engineer is received. I am enclosing a copy of a previous request to you, dated July 2, 1979, for information requested by the State Engineer's office.

Enclosed is a copy of the U.S. Office of Surface Mining's approval.

Upon receipt of the State Engineer's approval this office will also approve the runoff sediment control facility.

Sincerely,

K. MICHAEL THOMPSON
ENGINEERING GEOLOGIST
