RE: Exploration Plans
Proposed Cottonwood Portal
Utah Power & Light Company

Dear John:

As we discussed during your field visit, Utah Power and Light Company has submitted to the Division exploration plans for the purpose of exposing bedrock at the proposed Cottonwood Portal site. Enclosed is a copy of these plans.

Due to normal fall weather conditions the review process should be handled as quickly as possible. The Division has set a goal of October 19, 1979 for the completion of our review and for our formal response to the company. If it is possible, the Division would appreciate a response from the Division of Technical Analysis and Research by that time.

If there are any questions please feel free to call.

Sincerely,

Mike
