RE: U.S.G.S. request for drill holes
within the Wilberg Mine.
ACT/015/018b

Dear Mr. Vaninetti:

The Division of Oil, Gas, and Mining would appreciate any effort you make to ensure that bore holes are drilled into the Star Point Sandstone within the Wilberg Mine. This action would benefit a study of regional groundwater made by the U.S. Geological Survey which is partially funded by the Division. In addition, the information gained by the water samples would be useful in Utah Power & Light's groundwater monitoring program as required by this Division and the U.S. Office of Surface Mining.

Mr. Vaninetti

Utah Power & Light has been most cooperative in the past and the Division appreciates any help you may provide in this matter.

Sincerely,

CLEON B. FEIGHT
DIRECTOR
