Re: Cottonwood Portal Modification

Gentlemen:

On September 30, 1980, Utah Power & Light Company filed seven copies of its application to modify its previously submitted Cottonwood Portal application. As you are aware, by its most recent application, Utah Power seeks to construct only ventilation facilities at the Cottonwood Portal site. With that application, performance bonds to insure both short-term and long-term reclamation were attached. However, it has come to our attention that these performance bonds did not show both the Office of Surface Mining and the Division of Oil, Gas and Mining as obligees. Accordingly, we have obtained riders to these bonds and enclose the originals thereof. We would appreciate it if you would attach these riders to the application submitted on September 30, 1980.

If anything further is required, please advise.

Very truly yours,

RALPH L. JERMAN
