JIM

AUG 15 1983

Mr. Jim Smith
Coordinator of Mined Land Development
Division of Oil, Gas and Mining
State of Utah
4241 State Office Building
Salt Lake City, Utah 84114

Dear Jim:

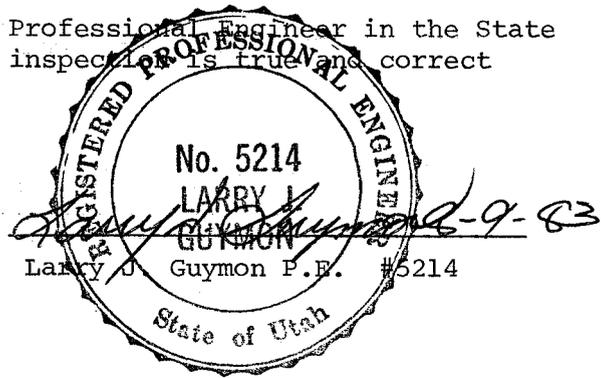

As required by UMC 817.71(i) this is a quarterly inspection report of the Wilberg Waste Disposal Site #1 and #2.

A visual inspection of the two sites was made on July 25, 1983 by myself.

Site #1 has been covered with 18" to 24" of soil material in preparation for reclamation work as specified in our approved plan. No settlement or adverse conditions relating to stability were observed.

Site #2, about 75 to 80% of this site is full. No settlement or adverse conditions were observed during the inspection. The fill is being made as required in our approved plan.

I do hereby certify that I am a Registered Professional Engineer in the State of Utah and do also certify that this report of inspection is true and correct to the best of my knowledge and belief.
