**DIVISION OF  
OIL, GAS & MINING**

Dear Jim:

Utah Power & Light Company, under separate cover, submits seven (7) copies of its responses to the Regulatory Authority's Apparent Completeness Review dated September 9, 1982.

Included in this submittal also are responses for the Cottonwood Fan Portal Modification, which is a part of the Wilberg Mine.

The most important and urgent need in maintaining Wilberg's present coal production is the timely approval of the Cottonwood Lease Modification submitted earlier.

Access to this new lease, through the Wilberg Mine, is scheduled for completion by November of this year.

If we can be of any further assistance, please contact this office.

We look forward to working with you on finalizing these applications.

Sincerely,

*D. W. Jense*
