Dear Ms. Boucek:

This office has completed its review of the subject data submitted. The ponds in question are small and don't appear to pose a significant hazard to life or property. This letter will serve as final approval of the proposal from the standpoint of dam safety. Approval is of course, subject to the satisfaction of any outstanding water right conflicts (if any), and the approval of other involved agencies.

Yours truly,

*Dee C. Hansen*
